Phones: Office, 201 Residence, 262

Notice to Subscribers.

1. New subscribers are being connected daily. If you do not find the name of the person with whom you wish to talk, in this directory, call information desk.
2. When operator calls for "number" give the number of subscriber distinctly, repeating each figure of the number separately.
3. Face the instrument and talk in a moderate tone directly into the transmitter.
4. When through talking return receiver to the hook promptly: your line tests busy until this is done.
5. If you desire a second connection, hang up receiver and take it down again.
6. To quicken service, when called please answer promptly. The subscriber at the other end is waiting.
7. IMPORTANT! Under no circumstances hang up receiver until through talking as this will give a disconnecting signal at Central.
8. Report all errors and inattention of operators to Chief Operator.
9. Report all line and instrument trouble to Wire Chief and if not repaired promptly report to manager's office, number 100.
10. Operators are forbidden to visit over the lines. Their exclusive business is to answer calls. Please do not engage them in conversation. It impedes the service and may cause their dismissal.
11. The use of profane and obscene language over our lines is strictly forbidden.
12. Telephone rates will be given and orders for telephones received at the Home Telephone Building, corner Philadelphia and Bright. Come in and see us, or call us up on Telephone No. 100.

Talk in a moderate tone of voice.

You can talk to Los Angeles two minutes for 15 cents.

INFORMATION

Operators are too busy to look up numbers. If you are unable to find number of party desired in directory, please call for information desk.

LONG DISTANCE

If you desire long distance connection please call for "long distance."

NOTICE

All subscribers west of the San Gabriel river are classed under the head of Rivera.

POLICE

If you need the police for any purpose call central, we will do the rest.

FIRE

In case of fire call Central. Be sure to give name and location of fire. We will do the rest.

You can talk to over 800 subscribers in Whittier. This book should contain your name. If not here see that it appears in the next issue.

Whittier Home Telephone & Telegraph Company

Test Your Vision.

The eye is the most delicate, complex organ of the body. Yet no part of the physical system suffers greater neglect. One reason is that its character has been imperfectly understood until recently, even by scientists. Ages of ignorance have developed a large brood of popular superstitions, morbid whims and prejudices. These deter people from having their eyes carefully tested and fitted. But prejudice and ignorance are yielding to the progress of science. For the sake of the travelling public an engineer is no longer qualified to take control of a locomotive till his eyes have been examined and pronounced free from color blindness. For their own comfort as well as the preservation of their sight all adults should secure repeated tests of vision as age advances. To prevent serious injury and possible ruin of their sight, all children's eyes should be examined, especially at the time of entering school. We expect to see the day when this will become as compulsory as vaccinating school children, and with greater reason.
